

Product Bulletin

Aerokut 200

Aerokut 200 is a petroleum based cutting oil specially compounded for light to medium duty applications. Aerokut 200 is fortified with chlorinated and sulfurized extreme pressure additives to provide long tool life and good finishes. The low viscosity helps to dissipate heat and flush chips from the work area.

Features and Benefits

- Applicable on ferrous and non ferrous metals
- Provides rust protection to machined parts
- Extreme pressure additives provide long tool life
- Provides boundary lubrication for improved finishes
- Easily removed with alkaline cleaners
- Displaces water to coat metal surface

Typical Properties

Appearance	Brown liquid
Bulk Density	7.6 lbs/gal
Specific gravity	0.91 @ 20 °C
Solubility	Insoluble
Flash Point	>300 °F
Viscosity	200-250 @ 100°F

Application Procedure

Aerokut 200 is normally used full strength and therefore no control procedures are necessary. It can be applied by spray, mist or flow. Aerokut 200 can be removed from parts after machining with alkaline cleaners Hasco Admiral X, Buckeye, Orlando or SOL-R a solvent degreaser.

Consult Material Safety Data Sheet for a complete description of proper handling procedures.
