

EVERGREEN

EVERGREEN is a moderately alkaline liquid cleaner designed for use in a variety of cleaning operations. It effectively removes oils, grease, paints, graffiti and a variety of soils from surfaces. It is specially formulated for mild but effective cleaning of the special non-lint, non-static materials used in paints shop covers. Evergreen can be used in pressure washers, steam cleaning equipment, floor scrubbers or trigger sprayers for maintenance cleaning or for soaking small parts in still or agitated tanks. The product can also be used as a general surface cleaner or as a floor cleaner.

Features and Benefits

- Moderate pH reduces hazard for workers
- Rinses freely and completely to minimize carryover and residue
- Removes a variety of soils at economical low temperatures
- Mild formulation increases fabric life
- Contains no phosphate for easy disposal

Typical Properties

Appearance	Clear straw liquid
Gravity	1.02 @ 70 °F
pH (@ 5% by volume)	11.0
(concentrated)	12.4
Foaming tendency	Moderate to high

Application Procedure

Evergreen is used between 10 and 100 % by volume depending on the cleaning requirements and equipment being used. Concentrations of 20 to 50% are generally recommended for manual cleaning at room temperature. In heated cleaning tanks, concentrations of 10 to 20% should normally be sufficient. Lower concentrations can be used in floor scrubbers and other mechanical cleaning equipment.
