

Orlando

Orlando is a concentrated all-purpose d-Limonene based cleaner that cleans a variety of industrial surfaces. The natural citrus solvent is especially effective on concrete floors. It can also be used to clean heavily soiled parts in agitated cleaning tanks without the use of caustic or traditional solvent based products or be used as a maintenance cleaner where the mild sweet smell and mild pH offer an advantage. Orlando can be used full strength or diluted with up to 50 parts water to form a clear solution.

Features and Benefits

- Low pH minimizes hazard for workers handling parts
- Has a sweet pleasant odor
- Removes tough soils including grease, tar and uncured paint
- Completely and easily soluble in water
- Contains no phosphate, borate or chelates for easy disposal
- Applicable on all metal surfaces

Typical Properties

Appearance	Clear yellow liquid
Odor	Orange / citrus
Bulk Density	8.0 lbs/gal
Specific Gravity	0.96 @ 70 °F
pH (@ 5% by volume)	9.3
(concentrated)	9.8
Flash Point	135 °F T.O.C.

Application Procedure

Orlando is used between 2 and 100 % by volume depending on the cleaning requirements and equipment being used. Concentrations of 20 to 50% are generally recommended for manual cleaning at room temperature. In heated cleaning tanks, concentrations of 5 to 20% should normally be sufficient.
